SKILLS

- Databases
- Full-Stack Development
- Figma
- Frameworks
- MongoDB
- AWS
- Cloud
- Restful API
- Public Speaking

Detail-oriented and fast-learning developer with internship experience in full-stack development. Looking to contribute to real-world projects in a collaborative environment while expanding my technical and problem-solving abilities.

EXPERIENCE

Full-Stack Web Development | AmeeraTel Inc.

January 21, 2025 – June 1, 2025

During my internship, I developed a full-stack **Workstation Mapping System** designed to help IT and admin personnel manage, assign, and monitor workstation locations within an organization.

TESDA Programming Java NC III | Programming

April 11, 2024 – June 10, 2024

Developing program codes using Java technology, including object-oriented analysis and design, and creating and refining Java applications with object-oriented programming concepts as part of a systems development team.

Capstone Project | Full-Stack

January 22, 2024 – December 22, 2024

Developed an **Online Food Ordering System** for our capstone project, enabling real-time menu browsing and order management. Earned the highest panelist score of **95.6** for functionality, UI, and technical quality.

EDUCATION

B.S. in Information Technology - Cordova Public College | 2020 - 2025

Senior High - Benthel Asia School of Technology
2018 | 2020
